Skilled professional with over six years of in depth knowledge and experience in emergency medical treatment care with expertise in medical practices and preventative medicine. Functions well under pressure during fast paced and stressful situations, able to identify risks, respond quickly, and implement effective solutions. Team leadership and collaboration, strong reputation for integrity and dependability, able to focus and motivate team members producing results and gaining recognition for the team.

PROFESSIONAL AND MILITARY EXPERIENCE

KSQUARE INC SOLUTIONS. AUGUST 2016 - PRESENT

Position: UI / UX Designer - Veteran Student

- Currently working on an internal project: A recruiter, employee and client managing application, able to generate graphic reports to track revenue and other business performance metrics, written in AngularJS.
 - A sixteen-week intensive UI/UX Bootcamp with career enhancement development.
 - Working with modern JavaScript frameworks, such as: AngularJS, NodeJS, HTML5, CSS3, GIT, Express, MongoDB, JavaScript design pattern and best practices.
- www.ksquareinc.com

ORGANIC VALLEY. APRIL 2016 - AUGUST 2016

Position: Intern Report Writer

- Applied the basic concepts of Scrum.
- Worked with Crystal Report writing in a live environment.
- Met or exceeded deadlines on time sensitive issues, such as identifying outdated reports and select them for archiving.
- Collaborated with other departments to resolve issues in outdated or broken reports, making them work more effectively.

U.S. ARMY. JUNE 2006 - PRESENT

Position: Combat Medic

- Administer first aid treatment or life support care to sick or injured persons in pre-hospital settings.
- Train in performing emergency diagnostics and treatment procedures, such as advanced airway management, hemorrhage control, and treating for shock.
- Train and educate 250 personnel in First Aid, blood borne pathogens, and preventative medication.
- Enter and upload medical documentation on Medical Protection System (MEDPROS) and Health Readiness Record (HRR) computer systems to ensure security and organization for each patient.
- Create databases that tracked 3500 detainee's medical records for medication, wound care, hospital visits, as well as other tracking areas required while overseas.
- Work with TC2, AHLTA-T, and Med-web.
